Everything for your lampworking success...everything.

Part # LEAF-VAC-SPEC

Baz Box - The Incredible Leaf & Foil Vacuum Table

No, this vacuum can't clean the house for you, but it will save you from continually wasting your delicate leaf and foil. This tool is a must have for all who apply leaf and foil to their art work and have experienced that feeling of frustration when that costly piece of leaf decides to be difficult. The 3 speed vacuum gently secures it to a 5" X 5" perforated stainless steel plate, keeping your valuable leaf and foil from taking flight by the slightest breeze. To make this tool even better, we have included a stainless steel cover to eliminate the chore of putting the leaf back into its packet when finished. Now just to show you how much we believe this tool will change your leaf experience, we are including a free book of copper leaf.

Part # JE3SET

Three Piece Jewelry Pliers Set

Here is a set of pliers that every lampworker needs to have on hand. Whether you are assembling your own jewelry, manipulating hot glass or just snipping silver wire for fuming, these pliers are perfect for the job. The set comes with round nose pliers for making loops in wire or pressing flutes into hot glass, long nose pliers to bend wire or micro mash hot glass and a flush wire cutter to cut stringers and... well you know, cut wire. An incredible price on three very versatile tools.

Only \$9.95

Part # RF-RASSORT

Reduction Rod Assortment

Why buy 1/4 pound of a single Reduction Glass Rod color when you can take advantage of this great opportunity to try out several different colors? Our 1/4 pound assortment has about six 13" labeled rods, with at least one rod being the incredibly popular Iris Orange, AKA raku color. Instructions are on our website.

Only \$7.95

Part # FIB-BR

Ceramic Fiber Insulating Blanket

Place your small, flame annealed beads between these two 1" thick ceramic fiber blankets to help minimize thermal shock while cooling.

Part # DVD-REMSCHS

Beyond the Magic- Advanced Surface Decoration & Color Manipulation

Don't miss out on getting the full colors out of your borosilicate pieces. In this DVD the talented Doug Remschneider demonstrates how to create metallic finishes and shimmering effects on borosilicate beads. He also shares the key steps needed to master the art of bringing metal to the surface of borosilicate glass rods and frit. This video is 1 hour and 35 minutes long and packed full of all the basic skills needed for surface decoration and color manipulation.
